Enrollment Rx Selected as a Finalist in the Force.com Forty Partner Showcase

Schiller Park, IL – November 10th, 2009 - Enrollment Rx, LLC, today announced that it has been selected as a finalist in the Force.com Forty Partner Showcase by salesforce.com.

Enrollment Rx develops student relationship management solutions for higher education, offering world-class products developed entirely on the Force.com platform. Enrollment Rx's cloud computing solutions deliver powerful tools for managing recruitment and enrollment for higher education institutions as well as other student tracking processes in career services and alumni relations.

Lawrence Levy, President of Enrollment Rx, LLC said, "We are honored to be selected as one of the finalists in the Force.com Forty Partner Showcase. Enrollment Rx is very proud of our Higher Ed CRM products and is excited to work with salesforce.com to bring higher education into the cloud."

"Customers look to salesforce.com partners like Enrollment Rx for help delivering student services," said Kendall Collins, chief marketing officer, salesforce.com. "With solutions such as what Enrollment Rx demonstrated during Force.com Forty, higher education organizations will have access to innovative enterprise applications that help them run their organizations better. It's this unique value that becomes apparent during the Force.com Forty competition."

About the Force.com Platform and AppExchange

Force.com is the only proven enterprise platform for building and running business applications in the cloud. The Force.com platform powers the Salesforce CRM applications with more than 800 ISV partner applications like those from CODA and Fujitsu, and more than 120,000 custom

applications used by salesforce.com's 63,200 customers such as Japan Post, Kaiser Permanente, KONE and Sprint Nextel.

Applications built on the Force.com platform can be easily distributed to the entire cloud computing community through the salesforce.com AppExchange marketplace at <http://www.salesforce.com/appexchange/>.
